Privacy Act

Annual Report (April 1, 2021 to March 31, 2022)

B1. Introduction

The *Privacy Act* protects the privacy of individuals with respect to personal information about themselves held by a government institution and provides individuals with a right of access to that information.

This report has been prepared and will be tabled in Parliament in accordance with Section 72 of the *Privacy Act*. The information contained in this report pertains to the administration of the *Privacy Act* within the Parks Canada Agency.

Parks Canada's mandate is to protect and present nationally significant examples of Canada's natural and cultural heritage and to foster public understanding, appreciation and enjoyment in ways that ensure their ecological and commemorative integrity for present and future generations. The Agency is responsible for operations under multiple pieces of federal legislation and protects approximately 450 000 km² of Canada's terrestrial, marine and freshwater ecosystems. It is the steward of 47 national parks, one national urban park, four national marine conservation areas and 171 national historic sites, including nine heritage canals. The Agency is highly decentralized with team members located across the country and often in remote areas.

B2. Organizational Structure

Parks Canada's Access to Information and Privacy Office is comprised of seven (7) full-time employees. Internal policies and procedures have been developed in order to meet its obligations in compliance with the *Privacy Act*, regulations and Treasury Board policies, and those continue to be improved on a regular basis.

Parks Canada did not enter in any service agreements under section 73.1 of the *Privacy Act* during the reporting period.

B4. Highlights of the statistical report

The following report presents an overview of activities carried out within the Agency during the reporting period of April 1, 2021 to March 31, 2022. The Statistical Report (Appendix A) contains detailed statistics on the information requests processed under the *Privacy Act*.

Parks Canada responded to all requests for personal information within legislated timelines.

Thirty-one (31) personal information requests were received under the *Privacy Act*. Two (2) requests were carried over to next reporting period.

The number of completed requests, broken down by completion times are: Twenty-four (24) completed within 1-30 days, seven (7) completed within 31 to 60 days.

No active complaints were outstanding from previous reporting periods.

Five (5) requests was fully disclosed and twenty-three (23) requests resulted in the partial disclosure of the records.

The following is a percentage breakdown by disclosure types for privacy requests processed in 2021-2022

Disclosure	Percentage
All disclosed	16%
Disclosed in part	71%
No records located	12%
Requests abandoned	1%

Section 15 of the *Privacy Act* permits the statutory time limits to be extended if consultations are necessary, if translation is required or if the request is for a large volume of records and processing it within the original time limit would unreasonably interfere with the operations of the institution.

Parks Canada invoked a total of seven (7) extensions during the 2021-22 reporting period that were deemed necessary to process a large volume of records.

In the last three (3) years since fiscal year 2018-2019, there has been a 71% increase in the number of privacy requests received.

The Agency did not receive any consultation requests under the *Privacy Act*. No consultations were carried forward from the previous reporting period and no consultations were carried forward to the next reporting period.

There was no impact on the processing of requests due to COVID-19 during the reporting period. Parks Canada responded to all requests within legislated timelines. Due to mitigation measures put in place during the previous fiscal year, all documents were received electronically and then imported into the ATIP processing software. The ATIP Office continued delivering responses electronically via epost connect.

The Agency provides the public with information on an informal basis. Information is provided only when the Agency is satisfied that the information requested concerns the individual making the request or where at least one of the conditions outlined in subsection 8(2) of the Act is met.

In addition to the above, Parks Canada's ATIP Office also reviews human resources investigation reports and provides strategic advice on human resource issues.

B5. Training and Awareness

Facilitating efficient and transparent access to information and to personal information for Canadians is a priority for Parks Canada.

To ensure that all employees of the Agency are aware of the legislation and their obligations, general awareness sessions are also given periodically to provide basic information on the provisions of the *Privacy Act*. Furthermore, there is a comprehensive section on Access to Information and Privacy on the Parks Canada's Intranet site that is available to all employees.

The Agency put a focus on training its employees on their responsibilities pertaining to access to information and privacy. Thirty (30) training sessions were given to Agency employees in 2021-2022. In total, 460 employees attended these sessions. More than double the amount of employees were trained in 2021-2022 fiscal year and triple the number of training sessions were offered compared to the previous fiscal year. This increased training was made possible by strengthened access to digital connectivity for live video presentations and the technical resources across the Parks Canada network.

B6. Policies, Guidelines, Procedures and Initiatives

During the reporting period, the ATIP Office was continuously ensuring that its policies and procedures for processing requests made pursuant to the *Privacy Act* were up to date and that adjustments were made to areas where the need for improvement was identified.

The ATIP Office has added a full-time resource to its team to analyze privacy management and provide recommendations to programs responsible for the national parks and national marine and conservation areas systems that provide many of Parks Canada's visitor services and activities. This has allowed for even greater consistency and efficiency in the administration of privacy requests and privacy matters within the Agency.

During the reporting period, Parks Canada updated the internal privacy breach protocol and over 103 requests for privacy compliance advice were completed.

The Agency did not receive authority for any new collection(s) or new consistent use(s) of Social Insurance Numbers during the reporting period.

B7. Summary of Key Issues and Actions Taken on Complaints

One (1) complaint was filed with the Office of the Privacy Commissioner of Canada during the reporting period under review. There have been no audits or investigations.

B8. Monitoring Compliance

The Agency monitors the time required to process personal information requests. When the need for improvements are identified, internal processes are adjusted. No requests for correction of personal information were received during the reporting period.

B9. Material Privacy Breaches

There were no material privacy breaches reported to the Office of the Privacy Commissioner and to the Information and Privacy Policy Division, Treasury Board of Canada Secretariat during this period.

B10. Privacy Impact Assessments

Between April 1, 2021 and March 31, 2022, four (4) privacy impact assessments were still underway and are scheduled to be completed in the future.

B11. Public Interest Disclosures

There were no disclosures of personal information made pursuant to 8(2)(m) of the *Privacy Act* during the reporting period.
