

**Always keep your campsite and picnic area clean**

When you are done cooking or eating at your picnic table, all food, cooking and cleaning items, scented items and garbage **MUST** be properly stored. A clean campsite or picnic area does not have anything that will attract wildlife. Never leave these items unattended or in a tent or soft-sided trailer for any amount of time:

And any other scented items.

ALL food-related and scented items **MUST** be stored away in a hard-sided vehicle,

a hard-sided trailer or RV,

or in a food storage locker.

All garbage, recycling, and food waste must be disposed of in a wildlife-proof garbage bin. Do not put garbage or recycling on the ground, in a fire pit, or in the bed of your truck.

Empty dish water down outdoor sinks or at the dumping station in the campground.

**!** Parks Canada staff may secure wildlife attractants from your campsite if left unattended. Keep your campsite clean to reduce the risks to your personal safety and to wildlife.

It is illegal to feed, entice or disturb any wildlife in a national park. Violators will be charged, be required to appear in court, and could pay fines up to \$25 000.
