E - PRIVACY RELEASE

Personal information is used to administer real property activities such as administration and emission of permit application for development in the Jasper National Park. The collection of personal information is authorized by Subsection 8(1) of the Canada National Parks Act.

The information you provide may be shared with the public as part of the process of review of all development and building permit approvals in Jasper National Park. The information and drawings submitted with this application become part of Parks Canada's records and therefore subject to the Access to Information Act.

Your personal information is administered in accordance with the Subsection 8(1) of the Canada National Parks Act, the Privacy Act and other applicable laws. You have the right to the protection of, access to, and correction of your personal information, which is described in Treasury Board Secretariat Standard Personal Information Bank Real Property Management (PSU 948). Instructions for obtaining this information are outlined in the government publication entitled Info Source, which is available at the following web site address: www.infosource.gc.ca

You have the right to file a complaint with the Privacy Commissioner of Canada regarding the

F - IMPACT ASSESSMENT PROJECT DESCRIPTION FORM (Not Required for Interior Renovations)

Project Title:

Parcs

Project Description Template (Not required for Interior Renovation Projects)

Use this template to prepare a comprehensive description of a proposed project. Provide clear concise information as it will help determine the need for an environmental impact analysis (EIA). A well prepared project description will help move the project proposal forward efficiently. The level of detail should match the complexity of the proposed project and its potential to generate impacts of concern. Please include available designs and site photos.

If you have questions or need help contact the Impact Assessment Officer at the site where you are proposing work.

Project Description Template

Project phases and activities: i.e. "how the project will be completed" – through the site preparation, construction, operation and decommissioning phases. The <u>Project Phases & Activities Table</u> on the next page can help organize the information. Include:

- 1. Site preparation/access activities
- 2. Dimensions of structures, size of excavation, area of disturbance, fill requirements
- 3. Construction activities, methods, materials, equipment to be used
- 4. Associated project work (e.g., paving, vegetation removal, excavation, etc.)
- 5. Changes to utilities, capacity or demand, new lines (i.e. water, electric, natural gas, wastewater)
- 6. Toxic or hazardous materials (e.g. cast in place concrete, chemicals, fuels, paints, solvents, explosives)
- 7. Operational requirements: (materials, maintenance procedures, monitoring, waste & wastewater management requirements)
- 8. Site modifications, structure removals, site reclamation activities
- 9. Plans & drawings attached.

Project Environment

Other facilities that may be affected:

Site history (previous use, contamination, buried tanks, lines, cables):

Known cultural resources (e.g. buildings, engineering works, landscapes and landscape features, historical and archaeological objects):

Distance to nearest water body, water crossings, shoreline work:

Fish & fish habitat:

Species at risk, critical habitat, and residence of individuals (if any):

Other species & habitat:

Site photos or map attached:

Red flags/issues:

Project timing: details on proposed project schedule (Terms of Reference, contract package, construction phases & scheduling, in-service targets, reclamation activities).

Additional details (as required):

Potential for project to affect use of lands or resources by aboriginal persons (as relevant):

Other jurisdictions or departments involved in project development, review & approval (as relevant):
