everything depends on everything else

Gwaii Haanas is a special place. A place where the health of the land, the sea and the people are intertwined and have been for thousands of years. In 2020, we celebrated the 10th anniversary of the national marine conservation area reserve. This anniversary gave us the opportunity to acknowledge how far we've come, while also thinking about our ongoing commitment to protecting fragile marine ecosystems, honouring Haida knowledge, and respecting nature.

ACROSS

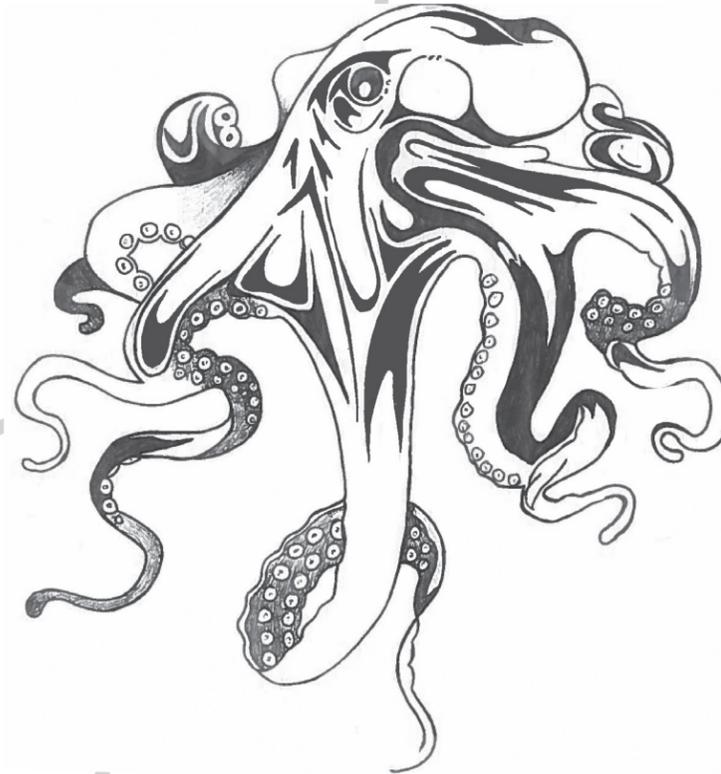

- Islands off the North coast of British Columbia
- A fun way to catch your dinner
- I spend my summers in Gwaii Haanas feeding on krill
- Sea creature with eight legs

DOWN

- Protected area in the southern part Haida Gwaii
- A boat that can be pushed by the wind
- Guardians of ancient Haida villages
- Name for a group of whales
- An important ocean habitat = _____ forests
- Watch Out! I have sharp pinchers
