Other

Creek Chub

For example: The angler fished on April 1^{st} at Frozen Ocean Lake with spinning gear for $5\,\%$ hours, targeting White perch. The angler caught $6\,$ White perch and $8\,$ Yellow perch

1. Record information for YOUR fishing only

White Sucker Bullhead Catfish Brown trout Chain Pickerel Yellow Perch W. White Perch Brook Trout Perch White target species. If you are targeting anything write "ANY" RETURN this diary even if you do not catch anything fly fishing gear OCEAN Frozen License Number: Date (dd/mm) Record t Record t

Additional Fishing Effort Cards are available at the Visitor Centre

- 2024 ANGLER DIARY

Thank you for completing the required Kejimkujik Angler Diary on the reverse side of this page!

Beaverskin Lake

Lake

Pebbleoggitch

Mountain Lake

Cobrielle Lake

Grafton Brook

Rogers Brook

WATERWAYS

- NO FISHING AT ANYTIME ON THESE

Closed Waters

The information collected provides Keiimkuiik researchers and managers with the information needed to make informed decisions regarding the health, protection and future of our Brook trout population and the entire aquatic ecosystem within Kejimkujik. Each licence with a completed and returned Angler Diary will receive commemorative patch. This year's patch features a Creek Chub!

Everyone who submits their Angler Diaries can also get a copy of the 2024 Angler Diaries Annual Report! This report outlines the results of the angling season for the year at Kejimkujik. If you would like a copy of the 2024 Angler Diaries Annual Report, please provide either your:
