

APPLICATION TO ORGANIZE ACTIVITY OR USE SITE

PLEASE

complete this
application form

Applications for business licences will receive an answer within 15 working days following receipt of all the required documents and the completion of the environmental and cultural impact assesment

Applications for special events permits will be processed according to following periods: the deadline to submit an application for a new activity that will take place in the winter (between November 1 and April 30) is September 1. For an activity that will take place in summer (between May 1 and October 31), February 1.

PLEASE RETURN THE APPLICATION TO
permits-lamauricie@pc.gc.ca

Thank you for your interest in organizing your activity at La Mauricie National Park. To assist you in presenting your application, please complete the form.

TERMS

All activities are subject to Parks Canada's fees policy as well as the fees applicable at La Mauricie National Park, in particular entry fees and accommodation fees, as well as fees for the use and/or rental of infrastructures.

All activities are also subject to Parks Canada's communication policy.

All activity requests submitted will be subject to an environmental and cultural impact assessment.

Your request will be processed following receipt of the duly completed form, including all the documents mentioned as required. To be approved, certain conditions apply, which may vary depending on the nature of the request. Feel free to highlight how your activities contribute to helping Parks Canada protect and showcase the natural and cultural heritage of La Mauricie National Park.

We will review your request and let you know if the site is available, whether or not it is suitable for your event or activity and what documents and authorizations will be required before we can obtain final approval. Once this approval has been obtained, when holding their activity, the permit holder must agree to respect the conditions, if any, issued by the Parks Canada Agency.

CONDITIONS

The request must be submitted early enough to allow the environmental impact study to be carried out, which may in some cases require a posting of 30 days before obtaining the result.

Parks Canada reserves the right to reject any application at its discretion. Parks Canada declines all responsibility for commitments made by the applicant to third parties in the event that the application is rejected.

Parks Canada collects fees set out in the Canada Gazette specific to activities carried out on its territory.
